Lab 4.1-2

Question 1

The image gets bigger if I increase i_focal_dist and smaller if I decrease it, because it changes the cameras field of view.

Question 2

I could use more rays to get smoother edges of the spheres and less aliasing issues on the checkerboard texture.

Question 3

- MAX_DEPTH 1: Glass ball and reflective objects are black
- MAX_DEPTH 2: Only glass ball is black
- MAX_DEPTH 3: Reflections in the glass ball do not look normal
- MAX_DEPTH 4: Everything looks like it should look
- MAX_DEPTH 5: Looks like MAX_DEPTH 4, because all the reflections have already been rendered
